

# 4 QUALITY EDUCATION

## Education

New programs opening according to SDGs goals in 2020/2021:

programs	Number of programs
Professional diploma	4
Bachelor degree	3
Master degree	2

### SDG Study Programmes

There is also a Sustainability module available under the Science and Bachelor of Advanced Science. These courses provide the students with basic understanding of the values that and importance of sustainability.

## Public Engagements

- Provide access to educational resources for those not studying at the university.
- Host events at university that are open to the public.
- Implementation training events to the general public.

## Operations

**In terms of operations in relation to the response to the covid-19 pandemic:**

- Complete educational process depend on e-learning.
- Conduct training for all university faculty members on how to work through the e-learning system.
- Communicate with students through e-learning platforms.
- Issuing a publication for faculty members and students about e-learning.
- Continue supporting the people with disability with access to required resources. The total number of students with disability registered at IUG is 160 students.
